THEWHIFFLORD'S DOJO

YOUR DISCORD SERVER

A plain-English guide to thewhifflord's dojo

FOR @THEWHIFFLORD

WELCOME TO YOUR DOJO

Your own Tekken community on Discord is built and ready. This guide explains what Discord is, what's in the server, what your followers can do there, and how you can use it to grow. You don't need to have used Discord before.

YOUR INVITE LINK

DISCORD.GG/HTQFRRBHJC

This link never expires. Use it to join yourself first, then put it in your Instagram bio, stories and TikTok so followers can join.

WHAT'S INSIDE

1. Discord in 2 minutes
The basics and the words people use

2. Tour of your server
Every channel and what it's for

3. What members can do
Frame data, matchmaking, levels, tournaments

4. Safety
What the bot handles for you automatically

5. Your owner toolkit
Commands only you and mods can use

6. Growing it
Getting members and making money

1 DISCORD IN 2 MINUTES

Discord is a free chat app built around communities. Think of it as a group chat with many rooms: text chats, voice calls and announcements, all in one place. Gamers use it to find people to play with, share clips and talk about the game.

GETTING SET UP

1. **Download Discord** on your phone (App Store / Google Play) and your PC (discord.com). Same account on both.
2. **Create an account** and pick a username. Use **thewhifflord** so people recognise you.
3. **Open your invite link** (**discord.gg/htqFRrBHJC**) and press **Join**.
4. **Accept the rules and answer the welcome questions** (your main, rank, platform and region). Every new member does this and it takes under a minute. You can change your answers later in **#roles**.
5. **Ask Ibrahim to give you the Whifflord role.** It's the owner role with full control of the server.

WORDS YOU'LL SEE

WORD	WHAT IT MEANS
Server	The whole community. Yours is **thewhifflord's dojo**. It shows as an icon on the left side of the app.
Channel	A room inside the server. Text channels start with **#** (like **#general**); voice channels have a speaker icon and work like a group call you can drop in and out of.
Category	A folder of channels, like **COMMUNITY** or **PLAY**.
Role	A label on someone's profile, like their Tekken main or rank. Roles also decide what people can see and do.
Ping / @mention	Typing **@name** sends that person a notification. Ping roles like **Content Pings** notify everyone who opted in.
Slash command	Type **/** in any chat box and a menu of bot commands pops up, like `/frame` or `/rank`. Pick one and fill in the boxes.
Thread / forum	A side conversation under one message, or a channel where every topic gets its own post.
DM	A private message between two people, outside the server.
Boost	Members can pay Discord to "boost" a server, which unlocks perks for everyone. Boosters automatically get your **Supporter** role.
Bot	An automated account. Your server has its own bot, **Tekken Bot**, which runs all the features in this guide.

2 TOUR OF YOUR SERVER

Channels are grouped so people always know where to go. New members accept the rules and answer a few questions when they join, then they're straight in.

CHANNEL	WHAT IT'S FOR
START HERE	
#start-here	A one-page guide to the server for new members.
#rules	The rules. Short version: no hate, no spam, trash talk the gameplay not the person.
#announcements	Official news from you.
#roles	Menus to pick your main, rank, platform, region, notifications and name color.
#welcome · #socials	A welcome card for every new member, and buttons to your Instagram, TikTok and YouTube.
COMMUNITY	
#general · #tekken-talk	Main hangout, and Tekken news and hot takes. A **Character of the Day** is posted in tekken-talk daily.
#memes · #suggestions	Memes, and ideas for the server (members vote on them).
#bot-commands	Where people use the bot. Level-ups and trivia appear here.
#veterans-lounge	Unlocks at level 20, a calmer room for regulars.
THE DOJO (GETTING BETTER)	
#beginner-questions	No question too basic.
#frame-data	Look up any move of any character with `/frame`.
#combos-and-tech	Combos, setups and tech.
#matchup-help · #replay-review	Forums: "How do I beat King?", and post your replays for feedback.
PLAY	
#looking-for-games	Posts from `/lfg` and `/queue` when people want to play.
#challenges · #tournaments	1v1 callouts that count for the server ladder, and server tournaments.
Voice channels	**Lobby**, **Sets**, **Training Lab**, **Watch Party**. Joining **+ Create Room** gives you your own private voice room.
CONTENT & MORE	
#whifflord-content	Your new posts and videos. Only you and mods can post here.
#clips-and-highlights · #hall-of-fame	Members' clips. Anything that gets 3 stars (⭐) goes to the Hall of Fame.
#supporters-lounge	Private room for Supporters (people who pay or boost).
#support	A button that opens a private chat with the mods.
#mod-chat · #mod-logs	Staff only. The logs show deleted messages, joins, warnings and anything AutoMod blocked.

3 WHAT MEMBERS CAN DO

Everything works through slash commands. Type **/** in a chat box, or `/help` for the full list.

LEARN

`/frame` shows startup, block and hit frames for any move, e.g. *Jin df+1*.
`/punish` lists a character's unsafe moves.
`/character` gives a quick overview.

PLAY

`/lfg` posts "looking for games" with your platform and rank.
`/queue` pairs you with the next person waiting.
`/challenge @someone` starts a 1v1 that updates the server ladder.

COMPETE

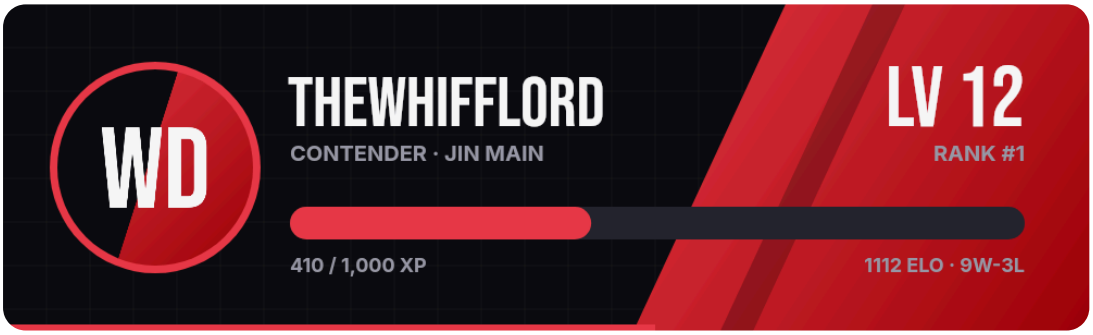

Tournaments with sign-up buttons and a bracket.
`/leaderboard` for XP, the 1v1 ladder and trivia.

FUN

`/trivia` Tekken quiz (also drops by itself every 6 hours).
`/random` picks a character for you.
Character of the Day, Hall of Fame, custom emojis.

LEVELS AND PERKS

People earn XP by chatting (once a minute counts), being in voice with others, and claiming `/daily`. `/rank` shows a rank card like this:

LEVEL	UNLOCKS
3 Rookie	Post images, GIFs and clips
5 Challenger	Post links
10 Contender	Pick a name color
20 Veteran	Access to #veterans-lounge
35 Elite	Shown separately at the top of the member list
50 Legend	Can request their own custom role

Supporters and boosters get 1.5x XP and every perk straight away. Locking images and links behind levels is what keeps spam bots and scammers out.

WHAT NEW MEMBERS SEE

Every new member gets a welcome card like this in **#welcome**:

SERVER EMOJIS

Custom emojis anyone in the server can use, by typing their name between colons (for example **:gg:**).

GG	EZ	WHIFF	SALT	LAB	HEAT	PUNISH	KO		
:gg:	:ez:	:whiff:	:salty:	:lab:	:heat:	:punish:	:ko:	:plusframes:	:minusframes:

WD
:wd:

4 SAFETY: HANDLED FOR YOU

You don't have to watch the chat all day. The bot and Discord's AutoMod do most of the work.

No hate
Slurs are blocked before anyone sees them, including misspelled versions and in usernames. The sender is timed out and warned.

No scams or spam
Fake "free nitro" and lookalike Discord or Steam links, other servers' invites, mass pings, message spam, caps spam and walls of text are removed automatically.

No bots
New members must accept the rules before they can talk, and links and images stay locked until people have chatted for a while. This is built into Discord, so it works even if the bot is offline.

Raid protection
If lots of accounts join at once, the server tightens its checks for 15 minutes and alerts the mods.

Warnings add up
3 warnings = 1 hour timeout. 5 warnings = 24 hours. Mods can see anyone's record.

Everything is logged
Deleted and edited messages, joins and leaves all go to #mod-logs, so you can always see what happened.

5 YOUR OWNER TOOLKIT

These commands only show up for you and your mods.

COMMAND	WHAT IT DOES
CONTENT	
`/post`	Share a new Instagram, TikTok or YouTube post in #whifflord-content and ping everyone who wants to know. **Do this every time you post.**
`/announce`	Post a styled announcement with a banner in #announcements.
EVENTS	
`/tournament create`	Make a tournament with a name, time and player cap. Members sign up with a button.
`/tournament bracket`	Randomly pairs up round 1.
`/tournament winner`	Announces the champion.
MEMBERS	
`/supporter give`	Give someone the Supporter role (e.g. after they pay you).
`/warn` · `/timeout`	Warn someone, or mute them for a set time.
`/kick` · `/ban`	Remove someone, or remove them for good.
`/userinfo` · `/warnings`	See someone's account age, level and warnings.
`/purge`	Delete a batch of recent messages.
`/lockdown on`	Emergency button: pauses chat in the whole server. `/lockdown off` to undo.

Making someone a mod
Open the server name at the top left → **Server Settings** → **Members** → find the person → add the **Moderator** role. Pick people you trust; mods can timeout, kick and ban.

Tickets
When someone presses "Open a ticket" in #support, a private channel appears under TICKETS for them and the mods. Press **Close ticket** when done; a copy of the chat is saved to #mod-logs.

6 GROWING IT

With 1,700 followers you already have the audience. The server gives them a reason to stick around, and gives you a direct line to them that doesn't depend on the algorithm.

GET PEOPLE IN

- Put **discord.gg/htqFRrBHJC** in your Instagram and TikTok bio
- Mention it at the end of videos: "join the dojo, link in bio"
- Post a story when something fun happens in the server
- Ask early members to invite their Tekken friends

KEEP THEM ACTIVE

- Run a **weekly tournament** (e.g. Friday Night Fights)
- Hop in voice and play sets with members
- Use `/post` for every upload so members see it first
- React to clips and reply in #general. People stay where the creator shows up.

WAYS TO MAKE MONEY

IDEA	HOW IT WORKS HERE
Supporters	Offer a monthly supporter tier (e.g. through Ko-fi or Patreon). When someone pays, use `/supporter give`. They get #supporters-lounge, 1.5x XP and all perks. Discord also has a built-in paid membership feature called *Server Subscriptions*; check Server Settings once the server is bigger.
Coaching	Offer paid replay reviews or 1-on-1 coaching. People can ask through a #support ticket.
Tournaments	Once the community is bigger, sponsored or entry-fee tournaments with prizes.
Boosts	Members who boost get Supporter automatically. More boosts unlock perks like a server banner and better voice quality.
Sponsors	An active server with real numbers is something you can show to brands (controllers, energy drinks, gaming gear).

YOUR FIRST WEEK

- [ ] Download Discord, make an account and join with the link
- [ ] Accept the rules, then ask Ibrahim for the Whifflord role
- [ ] Pick your main and rank in #roles, and say hi in #general
- [ ] Try `/rank`, `/frame` and `/trivia`
- [ ] Put the invite link in your bios and post a story about it
- [ ] Choose 1 or 2 people you trust as mods
- [ ] Announce your first tournament with `/tournament create`

Questions, or the bot looks offline? Message Ibrahim, who set up and runs the bot. Frame data comes from tekkendocs.com.
